

Senior Android Developer

We're looking for a professional, curious and passionate Senior Android Developer who wants to make a difference.

Poznan, Poland

Engineering

Online since Dec 6, 2017

In our team you will be responsible for the development and maintenance of OLX mobile applications for Android. It is used by users in 10 countries in Europe. If you want to create an application installed on more than a dozen million devices that generate billions of page views per month, like learning new technologies and want to create the highest quality software, do not wait, just send your application!

We wait:

- min. two years of experience in developing mobile applications for the Android platform
- practical knowledge of Java SE and Android SDK, knowledge of object-oriented programming and designing of mobile applications
- experience in working with Android Studio and GIT
- ability to communicate, solve problems
- self-reliance
- initiative and seeking new trends
- experience in client-server projects and knowledge of the limitations of mobile platforms
- knowledge of the English language

Welcome:

- real impact on the development of the largest advertising website in Poland
- attractive salary
- flexible and rich package of benefits
- funding for learning English
- attractive relocation package
- participation in trainings and conferences
- access to the latest tools and know-how

We offer:

- salary: PLN 10000-14000 gross
- budget for training and conferences - even for those for which you have to go by plane
- annual bonus 15% - how you can handle it
- benefits (multisport and private medical care as standard, plus additional funding for travel, meals, leisure, language courses and many more)
- Comfortable workplace - MacBook, 2 monitors and what else you need, if it fits on your desk
- the possibility of working remotely (but without exaggeration, we would prefer to see you more often in the office)
- the opportunity to learn from the best programmers (if you go to meetups and conferences then you probably already know them)
