Online since Dec 6, 2017

OLX Group is part of Naspers, a global internet and entertainment group. In Portugal, we have our Lisbon Tech Hub creating classified products for the globe: many countries in Europe, Asia, Latam, etc.

In Portugal, OLX is the second Portuguese website with the most visits, every day! Our team is also responsible for other major Internet Portals in Portugal, nº 1 in each sector, Standvirtual and Imovirtual

Due to our international growth, we are looking for a **Operations Engineer**.

### ...at OLX Group

At OLX Group we have a clear ambition – to empower millions of people across the globe by helping them connect and share their goods and services. This inspiring purpose has helped us build one of the world's leading Internet companies. This combination of business and purpose attracts a certain type of person. If you've got an entrepreneurial drive and think you can use that drive to contribute to our purpose, then we'd love to empower you to be successful. Want to know more?

### Why OLX Group?

The OLX Group is a network of leading classifieds platforms in 45 markets, including brands like OLX, Avito, letgo, dubizzle, among others.

The OLX Group connects local people to buy, sell or exchange used goods and services by making it fast and easy for anyone to post a listing through their mobile phone or on the web. Hundreds of millions of people in local markets around the world generate more than 1.9 billion monthly visits, 37 billion monthly page views and 54 million listings every month on the OLX Group's online marketplaces.

Our 3000+ committed employees are making a difference from our 25 offices across the globe.

### What responsibilities will you get when working with us?

- Operate a Global rapidly evolving distributed Classifieds Platform at scale
- Support Incidents Management and Business Continuity Processes
- Manage, operate and improve our Monitoring Tools to support global distributed ecosystem
- Partake in an on-call rotation schedule as part of a Global Operations team
- Detect, investigate and diagnose Availability and Performance issues on Production Environments
- Work closely with and support our Application Teams around the world
- Collaborate and provide guidance on Monitoring and Incidents Handling to our Application Teams

## What will you need to be successful in this role?

### Basic Qualifications

- 2+ years of relevant work experience
- Operating High-Traffic distributed Web Applications at scale
- Solid knowledge of Linux/Unix Systems
- Familiarity with data transfer protocols (ie: HTTP)
