We are looking for a System Engineer, Infrastructure (m/f) in our great office in Berlin

Your opportunity..

As a System Engineer at the Infrastructure Team you'll be offered a unique opportunity to become a part of an international team of top engineers contributing to the global OLX Group success, responsible for the Availability and Performance of OLX Platform globally distributed Services supporting the underlying Infrastructure stack health, automation and monitoring.

Based in Berlin Office - one of the most vibrant European capitals, while working with and impacting all Classifieds websites around the world.

...at OLX

OLX is one of the largest e-commerce sites worldwide (300M users monthly!). OLX is designed to enable people to connect through buying and selling goods and services quickly, easily and for free. We try to create a richer world by bringing people together for win-win exchanges. Sellers win. Buyers win. Communities win. Earth wins. OLX wins. And most of all, you win. Being part of something special. In an open culture that encourages own initiatives, growth and entrepreneurial spirit. Sharing the same values.

At OLX we have a clear ambition - to create a richer world. We empower people to make the difference and we're always looking for great people to help us do just that.

Why OLX?

The OLX Group is a network of leading classifieds platforms in 45 markets, including brands like OLX, Avito, letgo, dubizzle, storia, stradia, among others.

The OLX Group connects local people to buy, sell or exchange used goods and services by making it fast and easy for anyone to post a listing through their mobile phone or on the web. Hundreds of millions of people in local markets around the world generate more than 1.9billion monthly visits, 37 billion monthly page views and 54 million listings every month on the OLX Group's online marketplaces.

Our 3000+ committed employees are making a difference from our 25 offices across the globe.

What responsibilities will you get when working with us?

- Support Global Classifieds Platform Evolution (Scalability, HA, Deployment)
- Along with the rest of the Team build and scale a worldwide DevOps Culture
- Contribute to Architecture, Tools, Standards and Best Practices for our Engineering Organization
- Research, suggest and implement new Technology Solutions
- Contribute to scaling our Platform to the next level of Modularity & Shareability
- Work closely with and Support our Infrastructure Teams around the world
- Provide and improve Deployment and Production Monitoring Tools

What will you need to be successful in this role?

- S. or M.S. in Computer Science or related field
- 5+ years with Infrastructure, BackEnd Experience
- Scaling High-Traffic Web Applications (Architecture/DB/MemCached/Solr/CDN)
- Performance Benchmarking and Diagnostic Tools
- Deep Knowledge on Amazon Web Services Management
- Advanced experience with Virtualization Solutions
- Strong Knowledge on Amazon Web Services Management
- Proficiency on Configuration Management Frameworks such as Chef or Puppet
- Familiarity with data transfer protocols HTTP(s), REST, SOAP, JSON
- Solid knowledge of Linux/Unix systems (especially Ubuntu)
- Containers experience a plus
- Kubernetes/Openshift experience a plus
- MySQL/MariaDB/Percona experience a plus
- Strong knowledge of Perl, PHP, Bash, Ruby or Python
- Excellent Problem Solving, Critical Thinking and Communication skills
- Good verbal and written English.

What can you expect from us and what do we offer?

- Contributing to the global Naspers Classifieds success
- International career and travel opportunities
- Work with an international team of top engineers learning from one another
- A budget for conference and education
- Competitive salary and great benefits
- Home Office possibilities
- Company Mobile phone for both business and private use
- Any tool you might need MacBook Pro, Notebook, PC
- Great office location around the corner from Berlin Hauptbahnhof

Inspired and interested in the job? Apply!

It's great that you want to apply for the role of System Engineer, Infrastructure (m/f)! Thank you for taking the time. Below, you will find our standard application form that we would like you to use. Once you hit the submit button, your application will be stored in our talent database.
