Delhi NCR, India

Engineering

Online since Dec 6, 2017

Engineering Managers at OLX need to be technical leader and motivator who are comfortable leading teams in a dynamic environment. The ideal candidate is self-motivated and detail oriented with experience working in a fast-pace software development environment.

...at OLX

At OLX Group we have a clear ambition – to empower millions of people across the globe by helping them connect and share their goods and services. This inspiring purpose has helped us build one of the world's leading Internet companies. This combination of business and purpose attracts a certain type of person. If you've got an entrepreneurial drive and think you can use that drive to contribute to our purpose, then we'd love to empower you to be successful. Want to know more?

Why OLX Group?

The OLX Group is a network of leading classifieds platforms in 45 markets, including brands like OLX, Avito, letgo, dubizzle, among others.

The OLX Group connects local people to buy, sell or exchange used goods and services by making it fast and easy for anyone to post a listing through their mobile phone or on the web. Hundreds of millions of people in local markets around the world generate more than 1.9 billion monthly visits, 37 billion monthly page views and 54 million listings every month on the OLX Group's online marketplaces.

Our 3000+ committed employees are making a difference from our 25 offices across the globe.

What responsibilities will you get when working with us?

- Development and maintenance of Java, Nodejs ,J2EE application systems .
- Design and build extremely reliable, scalable and high performing enterprise systems in about one-third the time that most competent people think possible.
- Write quality code in an object oriented language like Java,Nodejs.
- People Management of 10-15 direct reports
- Enhance people management, grooming, nurturing of team.
- Ensure Agile product development best practices.
- Have a keen eye on design to improve user engagement scores.
- Work with Product and business owners to identify tech solutions to business problems.

What will you need to be successful in this role?

- Sound knowledge of object-oriented design concepts and algorithms.
- Must have lead end to end project development from requirement gathering to writing specifications to designing & implementing.
- Team handling experience.
- Strong problem solving and analytical capabilities.
- Fast learner, flexible and able to work well within a cross-functional team environment.
- Good knowledge of Core Java concepts.
- Experience in any three of these skills: Spring, Nodejs, Ant, Maven, Hibernate, Ajax, JMS,

What can you expect from us and what do we offer?

- Contributing to the global OLX Group success
- International career and travel opportunities
- Work with an international team of top engineers learning from one another
- A budget for conference and education
- Competitive salary and great benefits
